

CHRISTIAN ENAN

Full Stack Developer | Python, Django, Flask, JavaScript, REST APIs

Ahmedabad, Gujarat, India | christianenan57@gmail.com | +91 7046452028 | [LinkedIn Profile](#) | [GitHub Profile](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and integrating backend logic, RESTful endpoints, and relational databases using Python, Django, and Flask, paired with frontend development in HTML, CSS, JavaScript, and Bootstrap. Delivered end-to-end applications including an E-commerce platform and a Hospital Management System covering authentication, CRUD operations, and admin dashboards. Strong foundation in API development, database management, and full-stack architecture, with a quick-learning approach to Node.js and Express.js.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, HTML5, CSS3, SQL
- **Backend Development & API:** Django, Flask, RESTful API Development, API Integration, MVC Architecture, Authentication & Authorization, CRUD Operations
- **Frontend Development:** HTML, CSS, JavaScript, Bootstrap, Responsive Web Design
- **Database Management:** SQLite, SQL, Database Design, Data Modeling, Query Optimization
- **Tools & Practices:** Git, GitHub, VS Code, Agile/Team Collaboration, Software Development Life Cycle (SDLC)
- **Currently Expanding Into:** Node.js, Express.js for full-stack JavaScript development

WORK EXPERIENCE

Python Developer Intern — Vibrant Web Tech

Jan 2026 - Apr 2026

- Developed and maintained full-stack web applications using Python and the Django framework, building backend logic to handle requests, process data, and manage responses.
- Built and integrated core modules for a Hospital Management System, including an admin dashboard, appointment management workflow, and patient discharge system.
- Designed database-driven features using SQLite to manage records for doctors, patients, and appointments, implementing CRUD operations across multiple modules.
- Improved UI/UX across application modules using HTML, CSS, and JavaScript, enhancing usability and overall user experience.
- Collaborated with team members on debugging, testing, and feature integration throughout the development lifecycle.

Artificial Intelligence Intern — CSRBOX

Jul 2025 (15 Days)

- Explored AI concepts and applications, performed data analysis and model experimentation, and collaborated with a team on research activities, strengthening analytical and communication skills.

PROJECTS

E-commerce Website | Python, Django, HTML, CSS, JavaScript, Bootstrap, SQLite

- Built a full-stack e-commerce web application with user authentication, product listing, shopping cart management, and order placement functionality.
- Developed backend logic and API endpoints to handle user requests, process orders, and manage data through an SQLite database.
- Implemented a responsive frontend using HTML, CSS, Bootstrap, and JavaScript for cross-device compatibility.

Hospital Management System | Python, Django, HTML, CSS, JavaScript, SQLite

- Developed a web-based Hospital Management System to streamline hospital operations, including management of doctors, patients, and appointments.
- Implemented secure, role-based login and access control for administrators and other user types, with backend logic and SQLite database integration supporting CRUD operations across modules.

EDUCATION

Bachelor of Engineering in Information Technology

2022 - 2026

SAL Engineering & Technical Institute, Ahmedabad (Gujarat Technological University)

CGPA: 8.52
